Education

National Institute of Technology, Andhra Pradesh

Nov 2022 – May 2026

Bachelor of Technology in Computer Science and Engineering — CGPA: 7.97/10.0

Tadepalligudem, Andhra Pradesh

Relevant Coursework

- Data Structures and Algorithms
- Database Management Systems
- Software Engineering
- Design and Analysis of Algorithms
- Operating Systems
- Object Oriented Programming

Experience

Think Logic Tech Solutions Private Limited | 

Nov 2024 – Jan 2025

Full Stack App Developer Intern

Remote

- Developed a scalable PG Management application by designing a refined schema, ensuring high scalability.
- Launched essential features such as user authentication and payment gateway booking, driving a 30% increase in user engagement metrics and supporting the successful acquisition of key industry partners through improved reliability.
- Integrated Razorpay for payment processing, increasing payment speed by 60%, and Hyperverge for photo ID verification, reducing verification time by 80%.

Teachnook (Training Internship) | 

June 2024 – Aug 2024

Full Stack Web Developer

Remote

- Selected for a competitive 2-month full-stack development training program in collaboration with Cognizance, IIT Roorkee, culminating in a team-based project.
- Contributed to a 5-person team to develop and launch a customer-facing e-commerce page for RHYNO EV, engineering an interactive product gallery with a real-time color customization feature.
- Tech Stack React.js, Tailwind CSS

Technical Skills

Languages: C++, JavaScript, Java, C, HTML/CSS, Python, SQL

Developer Tools: VS Code, Android Studio, Postman, GitHub

Technologies/Frameworks: React.js, React Native, Redux, Node.js, Express.js, Tailwind CSS, MongoDB, MySQL, PostgreSQL, Prisma, Git, RESTful API

Projects

StudyNotion - An EdTech platform | *React.js, Node.js, Express.js, MongoDB* 

Nov 2024 – Jan 2025

- Created a web platform connecting mentors and students, enhancing coding course accessibility and content delivery.
- Built an instructor dashboard with Chart.js for 100% customizable course management and integrated Razorpay for seamless payments, reducing checkout time by 30%.
- Ensured secure user access by implementing JWT authentication and cookie-based session management, utilizing Redux for robust state management across instructor and student account types.

Machine Learning assignments as a part of the Stanford Machine Learning 

May 2024 – June 2024

- Email Spam Classifier : Achieved 98% accuracy in spam email detection by designing and deploying a Support Vector Machine (SVM) classification model.
- Handwritten Digit Prediction : Built a Neural Network model to predict digits from 28x28 pixel grayscale images, with an accuracy of 95.8%.

Achievements & Extracurricular

- Solved 500+ DSA problems on LeetCode and GeeksForGeeks.
- Contributed as a Full Stack Web Developer to TechKriya'24, and Vulcanzy'24, facilitating registration for 2,000+ students from different colleges across 100+ events.
- Ranked among the top 1.5% of students who appeared for JEE Mains 2022.
